

JC-TRAP, See-Through Trap

www.JC-TRAP.com, www.ChineseClayArt.com

China Patent: 201520215498.3, International patent pending

- Protects the environment
- Captures particles in the filter
- Easy to install and clean up

Parts:

1. Bucket with lid. Sizes: Top 14 H; 10 ½ Top; 9 ¼ Bottom.
2. Pipe with screw. Pipe Size: 1 ½ inch (38 mm) US standard.
3. Nylon filter bag: Mash 20.
4. Rubber O ring.

Note: If needed, additional pipes to be placed between the bucket, sink and the wall may be purchased at outlets such as Home Depot or other hardware stores.

Step by Step for Installation:

1. Adjust the altitude of the side pipe so that it is on the same level as the drain pipe in the wall. Put bricks or pieces of wood underneath if needed.
2. Adjust the position of the hole on the bucket's cover so that it is right under the pipe coming out of the bottom of the sink.
3. Connect the side pipe from the bucket to the wall (additional pipes may be required depending on your setup, these can be purchased at a store like Home Depot).
4. Place the nylon filter bag in an open position inside the bucket, then put the lid on and insert the pipe in the hole of the lid.

Detaching and Cleaning up:

1. Take out the pipe and lid from the top of the buckets.
2. Repeat the installation number 4.
